DETAILED ACTION

This Office action is in response to the Amendment After Final Rejection filed on November 03, 2005. Claims 1-28 were cancelled, and claims 31-32 were newly added.

EXAMINER'S AMENDMENT

The application has been amended as follows:

- In claim 29, line 11, -- **the** -- has been inserted before **"second overdrive"** (for addressing double citation in claims).
- In claim 31, line 4, **"the"** before **"external drive belt"** has been replaced by – **an** – (for addressing lack antecedent basis in claims).
- In claim 31, line 10, **"the"** before **"external drive belt"** has been replaced by – **an** – (for addressing double citation in claims).

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose or renders obvious the claimed combination of a method of making a supercharger and an external drive assembly of supercharger including:

" Regarding claim 29:

*coupling an external drive assembly, comprising secondary overdrive components, directly to the impeller for driving and rotating the impeller; and
coupling the external drive assembly to a drive assembly mount.*

Regarding claim 31:

the multi-belt replacing the pulley of the existing engine component"

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

- Bytzek et al. (Patent Number 4,583,962) disclose a timing belt tensioner with damped constant spring tensioning and belt tooth disengagement prevention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
